## FINE FAIRS

### Several Fairs Held in this Vicinity a Success

The past three weeks have been very busy ones in the way of country fairs, and the stock, grain and vegetable exhibits are something that must be seen as they can not be described and do them proper justice.

First came the Olds fair, then the Milnerton, Innisfail, Didsbury, Three Hills and Bowden.

While Bowden is now at the business, this being her first effort in fairs, she had the best of everything going, the day was ideal, and the crowd large and cheerful and out for a good time. The exhibits were plentiful and good, especially in the vegetable and grain line. Next week we will print the prize list and give the fair, a proper write-up, but have not time this week.

The Milnerton, Innisfail and Three Hills prize lists will also be published as soon as we can get the copy from the secretary of each association. As there is considerable work connected with getting the prize list in shape, our readers will pardon the secretaries if the lists are a little late. Remember they are not paid large salaries.

### Read the Ads.

Our readers are requested to read the ads in the News and if you are trading at a store that has no ads in the paper (kindly ask him to assist in booming the country and making your farm worth more by placing an ad in our papers, for the more ads, we get the better paper we give, the district and the more it will help to increase the price of your land.

Little attentions like this from our farm friends will help us wonderfully. Not only that but it will please us if you will, when calling on merchants and others who carry an ad. with us, to mention that you saw their ad. in our papers and that you are pleased to see that they are up-to-date and willing to

help boom the country that is giving them a living. By all means let the saying become a household word that "Everybody reads the Bowden News" and all live ones carry ads in the News.

### Watches Given Away

Three watches will be given to the three correspondents who have the highest points on Thursday, November 18, 1909, and all should hustle and send in the news and new subscribers. New subscribers count five hundred points and a few new subs will put any of the contestants away ahead. We wanted to close the contest on October 30, but so many of our correspondents have asked us to wait until the 18th of November as at present few of the farmers have threshed and subscription money is hard to get just at present. It will be more plentiful after November 1st. It will give you a chance to work three weeks longer. The watches are worth it, besides the commission we allow you on new subscriptions will pay you a good salary for your time. Take a day or two off and hustle. See the watches at the jewelry stores at Olds, Innisfail and Bowden. It will help you to hustle.

Write us if you want more information. But win the watch. Three watches, remember, that are selling at the jewelry stores for fifteen dollars, are given away free

The hotel fed over 200 people fair day.

H G Munro was down from Red Deer fair day.

W H Stark was a passenger to Red Deer today.

Sid Willis of Crossfield is on the sick list this week.

Wm Morfitt was a business visitor at Calgary this week.

J P Simpson of Claresholm is acting agent at this point while F B Keene is away.

Read the Farmers Real Estate Exchange ad. next week if you want to buy, sell, trade or rent.

The News staff attended the Innisfail fair.

Mrs H Greer has been quite sick this week.

Mr and Mrs Luckhardt entertained a few friends at dinner Sunday.

Misses Lundy and Lauder were guests at the home of P McDermott over fair day.

Miss Glays Turnbull has resigned her position as clerk and booker at S Butlers store.

Miss Elphrick who was taken to Calgary to be operated upon is getting along nicely.

Messrs Marshall, Rands, Daly and Reeves were among those up from Olds to see our big fair.

Percy Hayward took his fine stallion to Didsbury last week and took first prize. Good for him.

That honey exhibit at the fair was sweet to look at and we hope to be able to say that it tasted good, too.

The News office is getting a great coat of paint this week and a few signs as well.

P McDermott was busy this week setting up a wind mill for Cyclone Binnings and a pump for H A Ewen.

Alex Munro, Bob Sharp, Frank Currie, and Paddy Ryan and the Misses West, Lundy and Lauder were among the young people who took in the dance here Wednesday.

Methodist services will be held at the following places on Sunday, Oct. 17th: Nesbit 11 a.m. Betchton 3 p.m.; Bowden 7.30 p.m. Subject: "Thoroughness." Phil 3-13-14

Edgar Wolton was a pleasant caller today. This is his first visit to the News office since his sickness; his many friends are glad to see him out again after his long illness.

W A Ramsey sold a fine wagon to Alex Ryrie this week and Alex and his brother are now going farming on their own hook. Get married, boys, and help boom this great country of ours.

A Stetson's vegetable exhibit was fine at the fall fair. In fact there were a lot of fine vegetable exhibits that should have a place in history but we had no way to get the names but hope to by next week.

A I Rhodes' crab apples certainly drew the crowd at the fair. They certainly looked like they used to back in Wisconsin when the editor used to get sick from from "cooning green apples" but we did not dare "coon" one this time—too many watching.

fault—get the news to us—we will print it.

The announcement from Winni-  
peg that the three prairie provinces  
will unite to secure control of their  
own school lands is important.  
The fact that the three govern-  
ments are not unanimous in their  
party views makes their co-opera-  
tion in this matter all the more inter-  
esting. It is an instance of the west-  
ern spirit that will not permit  
exterior affiliations to stand perma-  
nently in the way of western  
interests. If the Ottawa govern-  
ment only realized how independ-  
ent its western supporters are at  
heart, how narrow a margin some-  
times exists between support and  
revolt, it would not feel so secure  
of its majority.

The dominion government has  
nothing to do with education. It  
is only an anomaly that has per-  
mitted to administer the school  
lands of western Canada. Nothing  
but the reluctance of a despotic  
administration to give up anything  
in the way of control has kept  
these lands in the wrong hands up  
to now. This country is office-  
ridden almost to death. The grip  
of Ottawa officialism on the new  
settler is such as to give the pre-  
vailing administration about a  
seventy-five per cent. lead in the  
chase of his vote. How desirable,  
then, that everything, even the  
school lands, should be used for  
the promotion of so worthy an  
object.

And now the western govern-  
ments have rebelled and will ask  
that at least this small part of their  
assets be restored to them. May  
power go with them on their quest.  
Western Canada has been deprived  
by Ottawa of resources sufficient  
to make the whole dominion rich.  
Let us at least keep our school  
funds out of the maw of federal  
politics.—Calgary Herald.

The correspondents sending  
matter to the News should send  
same unsealed, or a two cent.  
stamp placed on the envelopes in  
case you wish to seal the letter.  
Kindly bear this in mind. Addi-  
tional stamps will be sent you on  
request.

Those who are working for the  
gold watches should hustle from  
now, as there is only a few weeks  
left. Remember that new sub-  
scribers count 500 points. A few  
new subs. will put you ahead.  
Those sending in their subscrip-  
tions should state if they want  
their subs. to count and who for.  
We will credit the same accord-  
ingly. The watches are worth your  
time and trouble. Call at the  
jewelry stores at Olds, Bowden or  
Innisfail and see them.

The News got out posters this week announcing Thos Gilligan's credit sale of horses, cattle and implements on section 32-33-26-4 five miles north-east of Mayton, on Friday, October 22nd, at 11 o'clock sharp. See posters for particulars.

F B Keene and wife left for Eveleth, Minn. Friday of last week, where they will remain for a month or so. This is Mr Keene's regular summer vacation and we hope he will enjoy the trip. They expect to visit Minneapolis, St. Paul, and other cities before returning.

The writer of the article in last week's Bowden News must have been a cigarette smoker, or the janitor must have been there, for by the looks of the hall the next morning they must have emptied Tarts Lamps. If the writer of that article thinks for one moment that the janitor is going to stay in town and look after the Hall on these so called (Special Nights) when the proprietor gets no more than he does for the Hall. [I am afraid he is mistaken].

Mr Jackson of Nickler, B C, bot the Greer Bros place this week, and expects to move onto the same this spring. We are glad to welcome men like Mr Jackson and we are sure he will do well here. That Terrible Swede Fellar, C J Sorensen of course put thru the sale. Chris has put thru several deals the past two or three weeks and says he is so busy that he hasn't had time to tell us about them.

The map which won first prize at the recent Red Deer fair and which was drawn by Jessie Shenfield was exhibited in the window of the Bowden Mercantile and certainly deserves great credit. On Thursday morning it was conveyed by the teachers of the Bowden Public School to the Teacher's Convention at Innisfail where it won the admiration of all present. From there it is to be taken charge of by Inspector Boyce and according to his wishes will be presented Premier Rutherford.

**School Notes**

The school children regret to hear that Mary Stitson has been very ill.

Thursday and Friday were holidays on account of the Teachers' Convention being held at Innisfail. Our principal Mr Gale attended.

A number of the scholars did some work for the fair, among whom were: Kathleen McCue, Bessie Brewster, Doreen McDermott, Eugene McCue, James Teeling, Catharine Campbell, Brine Howard, Charlie Roulston, Horace Rollars, Lois Rutledge, James Brewster, Dolly Shenfield and Cora Powell.

**Millerton Notes**

Everybody seemed to have a good time at the fair.

L McComb spent Sunday at his home. He is working on a grading contract near Bowden.

Among the mistakes in the Millerton prize list this week as published by the Province is in the poultry awards. L. McComb received first and second prizes for the best Barred Plymouth Rocks.

The editor of the Bowden News was at our fair and the secretary, Meers, promised to send him a list of the prize winners by Saturday, Oct. 9. On Friday, Oct. 15, when asked why he had not done so, he replied that he hadn't had time. He found time, however, to get a list for the Province. How much more work—it he intended us to have a copy to print in the News—would it have been for him to give us a carbon copy. The News has more than double the circulation in this section than the other paper and should come first. If Mr. Meers really intended to send the News the copy, when he found he could not do so he should have the business courtesy to phone or write the editor. In fact if he has so much outside work that he cannot attend to the fair affairs and give his association proper attention he should resign. We had the best fair held in Central Alberta and our secretary should not be allowed to hold back news of interest to all if he did it intentionally. And while the matter is before us—why wasn't the Bowden News given a chance to figure on that fair printing. Every member of the association is anxious to hear about it. \$50 or more is worth saving.

The prize list will appear next week.

## A STORY OF ERASTUS WIMAN.

Legal Paradox Saved Wealthy Canadian an Important Lawsuit.

There is in Toronto an old civil engineer, a Canadian who has returned to his native country after sojourning in many lands, and who was a friend of the late Erastus Wiman in his palmy days. The career of Wiman, the Toronto newsboy who rose to be a great American capitalist, and later came to an ignominious fall, is one that some day should receive an article all by itself. This tale has solely to do with an incident in his career when he was a magnate in New York and was engaged in making great modern improvements on Staten Island, where he had very heavy interests. One of these improvements involved a tunnel under a highway. Something went wrong with it, as often happens with contracts of the kind, and rival capitalists who were anxious to seize the fruits of his enterprise at once promoted litigation with a view to tying up the work until the franchise involved should expire under the time limit fixed. These are the sweet, kindly manners of capitalists toward each other.

The matter was fought through the courts, the technical point involved being whether the work which Mr. Wiman had carried out was a tunnel or an excavation. It was carried through several courts and one afternoon Mr. Wiman's old Canadian engineering friend whom he had not seen for years called on him and found him in a state of deep dejection. The courts had decided against him; his work was not a tunnel but merely an excavation. The money he had spent was lost and he was hit for heavy costs as well. He outlined the case to his friend, a case in which the best lawyers he could employ had been beaten.

"Well," said his friend, "didn't you know that there is no legal terminology governing works of engineering?"

"What do you mean?" asked Mr. Wiman.

"Simply that there is no such thing in law as an excavation. An excavation is what it ultimately becomes."

"Explain yourself," said the capitalist.

"Well, if you dig a hole in the ground in a vacant lot, it's an excavation, isn't it?"

"Of course!" said Mr. Wiman.

"But when you put a house on top of it it's a cellar, is it not? Your excavation if completed would have been a tunnel!"

"By Jove, that's true," said Wiman. "We'll reopen the case."

His lawyers were sent for. An appeal was granted and the case was won on this paradox, which was after all a very commonsense paradox.

## WANTED IT ALL

No Ross Bible Would Content This Orange Orator.

Men yet young will remember the controversy which took place in Ontario over what was known as the Ross Bible, but some of the generation which has since grown up may be puzzled to know what it was all about. The celebrated volume took its name from Hon. G. W. Ross, who was at the time Minister of Education. It was a series of excerpts from the King James version of the Holy Writ which the present Senator had collated for reading in the public schools. The Minister was of opinion that certain passages of the complete volume were unsuitable for reading by the young, but when the scheme was promulgated a large section of the community thought the "hand of Rome" was manifest. The Orange order, one of whose tenets is the "open Bible," made a strong fight, and almost defeated the Mowat administration, which was forced to back down on the issue.

One of the funniest incidents of the campaign was a speech by the late "King William" Bell, at that time a prominent figure in local politics and a high functionary in the Orange order. One night he was speaking at a meeting in West Toronto, and he became very much excited.

"We don't want any Ross Bible," he cried; "we don't want any mangled version of the Holy Scriptures; we want the whole damned book."

The audience fairly roared at this sally and the speaker, recovering himself, apologized and withdrew the adjective. Anyone who wanted to make him "sore" after that had only to allude to the episode.

## British Novel Markets.

It is a curious fact, and one that none of the many connected with the making and selling of British books will, I think, deny, that while the nation as a whole seems to be fast drifting toward protection, those who make their living by literature are being asked, for the first time, to consent to the extreme cheapening of their wares. The vain author—and the type of writer whom I have in mind is almost invariably a man and not a woman—is being "got at" on the pretext that if his work is offered to the public at a very low price it will reach an immense number of readers thirsting for the message he has to convey. Within the last week one such author has informed me that if his books could be published at, say, threepence a copy, there would be a shelfful of them in every cottage in England! Then there is the writer who is told that cheapness appeals circulation, and who is reminded that it is better business to earn fifty thousand pence than a thousand shillings.—"A Woman Novelist" in London T.P.'s Weekly.

## Do You Realise the Danger of a POISONED FINGER

DEATH OFTEN LURKS IN A CUT.

YOU see this danger illustrated in the case of Mr. W. C. Edwards, a well-known Friendly Society leader, of Peter Street, Toronto. He cut one of his fingers with a piece of glass, and instead of applying Zam-Buk to prevent blood poison and to heal it, he neglected the cut, and blood poison followed. He says:—"The blood-poison from the finger spread up my hand and arm and caused me terrible agony. After two months' treatment the doctor said there was no cure, and amputation would have to take place if I intended to save my arm. I left that doctor and consulted another. After a few weeks' treatment, he also told me that operation would be necessary. He said the bone had become diseased and the finger would have to be opened so that the bone could be scraped. I went away to consider when I would have the operation performed and met a friend who advised me to try Zam-Buk. That night I bathed the wound and put on some Zam-Buk. I got a little sleep for the first time for many nights. In the morning the wound began to bleed instead of the foul discharging as in the past. This was a healthy sign so I went on with the Zam-Buk. Well, to cut a long story short, in a few days I put away the sling, and in a few weeks the finger was healed completely. To-day that finger is as sound as a bell and I owe it to Zam-Buk. I spent over \$20 in doctors fees and when I think how Zam-Buk at such a trifling cost saved me from amputation I am very grateful for the balm I can tell you."

## WHAT ZAM-BUK CURES.

Zam-Buk cures cuts, burns, sprains, festering sores, ulcers, scalds, blood-poisoning, eczema, bad leg, diseased ankles, running sores, ringworm, cold-cracks, chapped hands, chilblains, and all other skin diseases and injuries. ## GOLD BROUGHT ON KIDNEY DISEASE

BRANTFORD LADY SUFFERED TILL CURED BY DODD'S KIDNEY PILLS

Mrs. A. H. Thomson had Heart Disease, Lumbago and Rheumatism, and Tells How She was Restored to Health.

Brantford, Ont. — (Special).—How colds, La Grippe and other minor ills settle on the kidneys and develop Rheumatism, Heart Disease, Bright's Disease and other terribly dangerous ailments; and how any and all of them are cured by Dodd's Kidney Pills is fully shown in the case of Mrs. A. H. Thomson, whose home is at 48 Albion Street, this city.

Mrs. Thomson was, some years ago, taken with Cold and La Grippe, and Straining, which affected her kidneys, and the result was Backache, Lumbago, Rheumatism and Heart Disease, which caused both her and her friends grave anxiety.

She had suffered some years when she heard of cures effected by Dodd's Kidney Pills, and bought a box, which she used with such splendid results that she continued to take them till she was cured. Since then she has used Dodd's Kidney Pills in her own family and recommended them widely to her friends, all of whom have warm words of praise for the standard Canadian Kidney remedy, Dodd's Kidney Pills.

Heart Disease, Rheumatism, Lumbago and Bright's Disease are all Kidney Diseases or are caused by diseased kidneys. You can't have any of them if you keep your kidneys sound and your blood pure. Dodd's Kidney Pills make the kidneys sound. Sound kidneys strain all the impurities out of the blood.

### Only One Thing Left

Seated in a corner of the compartment was one of those irritable young men who are continually finding fault with everyone and everything.

"Talk about individual rights," he went on, "where are they? If I walk on the foot path I am sure to get jammed between a couple of mail-carts; if I attempt to cross the street some idiot of a cyclist is bound to imperil his worthless neck and my limbs by arranging a collision; if I travel by tram-car I cannot choose my company; if I could fly—But what's the use of talking? I wonder if there is anything I could do without fear of molestation?"

"Yes," replied a burly navvy, taking a well-seasoned clay pipe from his mouth, "you might die, young un."

A Kansas colored man complained to his storekeeper that a ham which he had purchased was not good.

"The ham is all right, Zeph," said the storekeeper.

"No, it hain't boss," insisted the negro.

"How can that be?" argued the storekeeper. "It was only cured last week."

"Well, sah," said Zeph, scratching his head, reflectively, "den it mus' have had a relapse."

### College Sentiment

Dr. Blank, about twenty years a professor in the University of Virginia, was on the eve of a trip to Europe, to be absent two years. In pathetic and rather harrowing tones he made his farewell address to his class.

"Yes, I am about to part with you. This is more than distressing to me. Would that there was a window in my breast, my dear boys, that you might see the innermost recess of my heart."

A stripling in the rear, seized with a happy thought, shouted:

"Professor, would a pane in the stomach do?"—Lippincott's.

The other morning an invoice clerk turned up at his office even later than usual. His employer, tired of waiting for him, had himself gone about the work. The enraged merchant laid his pen aside very deliberately.

"Mr. Jones," he said sternly, "this will not do!"

"No, sir," replied Jones, drawing off his coat as he glanced over his employer's shoulder, "it will not. You have made these invoices out to the wrong people. Far better to have waited till I came!"

### Away They Went

"I hope," said the captain, addressing the passengers on a small coaster, "that we all twenty-five will have a pleasant trip." The soup then appeared. "I trust, too, that we—er—twenty-four will reach port benefited by the voyage, and as I look upon you—er—twenty-two smiling faces I am sure this group of—er—seventeen will be a happy family. Will all of you—er—thirteen I see at the table join me in drinking a health to our coming trip? We seven, that is three—well, you and I, my dear sir—here—steward clear away these dishes."

Amazed by the brevity of little four-year-old Gracie's nap, her mother asked her why she had awakened so soon. "Why," replied Gracie, looking up in childish astonishment, "I slept all the sleep I had."

### BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 77, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her to-day. If your children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

### I OWE MY LIFE TO GIN PILLS

If you want to see a happy woman, just call on Mrs. Mollie Dixon, 59 Hoskinn Ave., West Toronto.

"After ten years of suffering from Kidney Disease, I believe I owe my life to Gin Pills. "That's a fine house," said Brown to Jones, "and yet I cannot bear to look at it."

"Why not?" asked Jones.

"Why?" repeated Brown. "Because the owner built it out of the blood and the groans of his fellowmen; out of the grief of children and the wails of women!"

"Great Scott!" exclaimed Jones.

"The brute! What is he—a money-lender?"

"Oh, no, dear friend; he is a dentist!"

"Huh! I don't call that a birth. I call that a section."—New York Telegraph.

### Why He Sold Him

The village postmaster doubted that the animal offered for sale was really "a valuable watchdog," and eyed rather dubiously the nondescript canine.

"Deed he am, boss," answered Rastus.

"But if he was as good a watchdog as you make out, how is it you want to sell him at all?"

"Yo' see, boss, it am dis way: In dese hard times, I ain't done got nuthin' to watch."

## GOOD BLOOD AND GOOD HEALTH

Is the Result Obtained When Dr. Williams' Pink Pills Are Used

To have good health you must have good blood. It is only when the blood is bad that the health is poor. The blood is the life-giving fluid of the body—it is therefore an absolute necessity that it should be kept free from all impurities and poisons. To do this nothing can equal Dr. Williams' Pink Pills for Pale People. These Pills make new, rich blood with every dose; they drive out every impurity—every poison—and thus give good health. Concerning them Miss Bernadette Lapointe, of St. Jerome, Que., says:—"For several years my health was very bad—my system was completely run down. I had indigestion almost continually; my heart was weak; I had headaches and backaches, and was sore all over. My blood was very poor and more than once I was in despair. I tried many supposed remedies but none of them helped me. One day a friend advised me to try Dr. Williams' Pink Pills, telling me that she had found them good in a case similar to mine. I followed her advice and began taking the pills. They soon gave me some slight relief. Encouraged by this I continued their use for several months and they strengthened my whole system. I am to-day in excellent health and always keep Dr. Williams' Pink Pills in the house for if I feel a little out of sorts I take a box of Pills and am soon alright again."

Thousands of young girls throughout Canada suffer just as Miss Lapointe did. They are sickly all the time and are totally unable to take the enjoyment out of life that every healthy girl should. They need a tonic to build them up—to enable them to withstand the worries of household or business duties; to give them strength to enjoy social life. Such a tonic is Dr. Williams' Pink Pills for Pale People. These Pills give blood to bloodless girls; they strengthen the nerves; banish headaches and backaches; cure indigestion, rheumatism, heart palpitation and relieve the many ills of girlhood and womanhood. Sold by all medicine dealers or direct by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by Druggists. J. C. HENNEY & CO., Toledo, O.

### Religious Note

About the only people who don't quarrel over religion are the people who haven't any.—New York Times.

### THE OLD PIRATES.

They Were Cowards, Pilferers and Traitors to One Another.

The average pirate does not deserve his romantic reputation, even for ferocity. Pirates were brutes unquestionably and, like Captain Kidd when on the coast of Malabar, would exercise a "pretty severity" in order to extort confessions from prisoners whom they suspected of hiding goods. But the universal application of the maxim that dead men tell no tales and the dispatch of all prisoners "by the plank" were not practices of theirs. It was only at the end and when the last pirates, the broken men of the Napoleonic wars, were fighting their last fight on the south coast of Cuba that desperation made them utterly merciless. And when we say fight the word must be understood with a difference. The pirates were out "on the plundering account," and they rarely made a serious fight. Indeed, the essential cowardice of mankind is nowhere more visible than among these oppressors of unarmed traders and black villagers. Men who must have known that surrender would infallibly take them straight to the gallows laid down their arms to any decently appointed force without a blow. Every man hoped that he would save his neck, whatever happened to the others. At the worst they put off the evil hour.

Two of Avery's crew who were condemned to death petitioned that if they must be hanged they might at least be sent "to suffer in India." They may have hoped for escape on the way, but even if they were unable to get off it was better to be sent to die some months hence in India than to go to Execution dock tomorrow. They clung to their miserable lives to the last moment. Stevenson's pirates—cowards, pilferers, traitors to one another—in "The Master of Ballantrae" are the real men as they were. The pirates of "Treasure Island" are boys' book pirates. They are excellent of their kind, and Stevenson produced them with pleasure, but nobody knew better than he that they were but fantoches. A parent who found his boy becoming too fond of pirate stories might do worse than put the right volumes of state trials into his hands, and, if he could only obtain a copy, then also the broadside which contains "a full and true Discovery of all the Robberies, Pyracies and other notorious actions of that famous English Pyrate, Captain James Kelly, who was executed on Friday, 12th of July, 1700." The discovery purports to be a confession by the captain and shows abundant signs of being, in fact, taken down from his mouth by a copyist who heard him ill and reports him with grotesque misspellings.—David Hannay, in Blackwood's Magazine.

### Paid His Debt.

When Joe Chamberlain entered the House of Commons he was anxious to try his oratorical powers. A certain leading politician who was piloting a bill through the House was approached by one of Mr. Chamberlain's friends, who said:

"Chamberlain would like to speak on the bill. Can you give him a chance?"

"Well, you know, I think it would not do. He's a new member, and nobody knows what the dickens he might say."

Time went on. Chamberlain gained ground—became a power in Parliament. The leading politician, on the contrary, had made a series of blunders which had imperiled his position. An election was imminent. Forgetting his previous record, he thought that if he could get Mr. Chamberlain to speak for him he would strengthen his position. He therefore applied to the right honorable gentleman. The latter calmly surveyed him through his eyeglass and said:

"Well, you know, I think it would not do. I am a new member, and nobody knows what the dickens I might say."

### South Sea Swells.

Readers of old narratives of exploration in the south seas will recall the frequent references to the heavy swells of the ocean, which impressed the navigators with the idea of their remoteness from land. Dr. Vaughan Cornish explains the great size of the sea waves in high southern latitudes by the fact that south of the Cape of Good Hope and Cape Horn there is neither windward nor leeward shore and the prevailing wind in all longitudes is westerly. Thus when a west wind springs up it finds a long westerly swell, the effect of a previous wind, still running. The newborn wind increases the steepness of this swell and so forms majestic storm waves, which sometimes attain a length of 1,200 feet from crest to crest. The average height attained by sea waves in feet is about half the velocity of the wind in miles per hour.

### Strawberries in Alberta.

James Chegevin, a gardener at Ledue, Alberta, has this year grown fine samples of strawberries on his farm. The fruit was of good size and first-class color and flavor. He has made a specialty of strawberries for the past three years and at present has about two acres of plants. He is at present experimenting with twelve distinct varieties and states that the Alberta climate is ideal for profitable strawberry cultivation. In spite of the quite heavy demand and the consequent decrease in his berry producing plants, he will market fully fifty crates this season.

## Three Hills Happenings

Well, we should say we did have a fair. It was the best on the line so far. The poultry department was the best represented in the history of fairs in Alberta, nearly thirty pens being shown.

The grain and vegetables were up to any in Alberta and the dairy products would be hard to beat. The judges had a hard time to tell who were entitled to first prize. The cooking and pastry were well represented and showed care and experience in the making. The fancy work, drawing, and other classes in this section were up to the mark and there were scores of entries.

The horses and cattle were well represented, and showed the visitors that the valley had as good stock as any of them. The report of the races, and fair list, who received prizes, etc. will appear as soon as the secretary can get the list completed.

There were in the neighborhood of a thousand people at the fair, altho the weather was frosty and very windy in the morning. The visitors were many, and came from Bowden, Olds, Didsbury, and the inland towns were well represented.

Messrs McKercher, Marshall, Craig and others were out from Olds seeing things.

The handsome editor of the Didsbury Pioneer was there and seemed to be enjoying himself. That was really the main feature of the fair—three of the handsomest editors of the province—Duncan Marshall, of the Olds Gazette, H E Osmond, of the Didsbury Pioneer, and the editor of the Bowden News. Seldom is a city so honored, and the Three Hills citizens made the best of it.

Of course, there were other features that were interesting, you know, but in passing we should give the devil his dues.

The show at the Shaft was well attended, and the dance was a pleasant feature, many staying to take it in.

If you have any items of interest or news leave the same at the stores and they will be printed in the Herald. If we would all do this we could get out the best little paper in this district. Or drop a line to the editor at Bowden. We want the news—help us to get it.

Grave fears are entertained for the safety of a car of liquid refreshments which was headed this way from Montreal. The Three Hills Agricultural society will hold their second fall fair on Tuesday, Oct. 12th; and by all appearances the fair will be a bigger success than last year. A new feature in the prizes to be won is started this year with a cup donated by the merchants of Didsbury to be given to the exhibitor gaining most points in both the horse and cattle sections combined. The cup is valued at \$50 and is well worth winning. — Pioneer, Didsbury.

An eight foot vein of coal was struck in drilling a well at Walter Walley's place 20 miles east of Carstairs, at a depth of 85 feet.

At the new farm of R J Corcoran, two and a half miles from Acme, an eight foot vein of coal was struck at a depth of 50 feet.—Carstairs Journal.

The American "invasion" of Canada is the subject of an article in the Daily Mail of Oct. 5th by Frederick A McKenzie, who recently was seen to study conditions in the Dominion particularly with regard to the outlook for British trade.

"The Americans have secured three-fifths of the import trade of Canada," declares Mr McKenzie, "and they have done it through systematic, sustained and well planned work." The English invest only in debentures and preference shares, yielding fair fixed interest, with little risk and no control. The Americans build factories and acquire the retail business. The result is that a large part of Canadian manufacturing to-day is in the hands of Americans and the policy of many of the stores is dictated by them.

"In Winnipeg alone there are 100 firms working wholly or in part on American money. In city after city the leading stores have Americans standing behind them.

"Needless to say, the Americans do not push British goods. The United States maintains 128 consular agents in Canada, whose main work is to promote American interests and act as an American commercial intelligence staff."—Edmonton Bulletin.

The Calgary alderman confesses the belief that the Calgary reporters are a dull-witted lot, says the Edmonton Bulletin. He may be right, tho from this distance the pressmen seem to be making it rather uncomfortable for the passing grabber aldermen. The Albertan, for instance, declares that the street railway is carrying "about \$1.50 worth of aldermen" free every day. That should be sharp enough to penetrate an alderman's skull, particularly as the assumption is left that the valuation includes the whole council.—Calgary Albertan.

### Moose Mountain Breezes

[Too late for last issue.]

Moose Mountain to the front. Well you would certainly think so if you could only see how our grain is turning out.

Baily Bros. are threshing in this locality on their way out to Bowden.

Quite a number from around here attended the Undesirable's address in Bowden last week. They all say that they were more than paid for their trip.

The people around this district will be more than pleased to know that the big bear that has been helping himself altogether too freely to the young calves and pigs, was killed last Monday by Paton Bros. and Gorfield Thompson after a hard chase. We understand he weighed eight hundred pounds. Good riddance to bad rubbish.

We noticed Owen White with an usually big smile on his face the other day, and on asking him what was up he told us it was a baby girl. We wish the little Miss much joy.

Mr and Mrs Wood were visiting at the home of Mr Brightmans on Sunday.

E Schroeder and W Strong made a business trip to Bowden last Tuesday.

### Summit News

Mr and Mrs W H Stark and son Harold spent Sunday last in Bowden, the guest of Mr and Mrs W H S Luckhardt.

The people in this district have finished their harvest and some are busy ploughing. Threshing will soon be the order of the day.

Miss Bessie Brewster and Master Jim and Mr David McDougal of Calgary spent Sunday at the home of S L Boyd.

Among those who attended the Innisfail fair on Friday last were Mr and Mrs Stark and Herald, Mr and Mrs Rutledge, Master Harper and Miss Hazel, Mr Johnson and the Misses Loughheed. Several prizes were won by people in this vicinity. Mrs Stark took first prize for her biscuits, and also for her butter. The children from the school carried off eight prizes at Innisfail and seven at Red Deer besides the two at Olds.

Mrs W E Skitch and little son Ernest of Calgary spent a few days last week the guest of her sister-in-law Miss C E Skitch.

Our teacher Miss Skitch attended the teachers convention for the Red Deer Inspectorate held at Innisfail last Thursday and Friday. Miss Langton was also present.

Miss Turnbull of Bowden visited Miss Hazel Rutledge one day last week.

Owing to the unfavorable weather last Wednesday, only the people in immediate district were able to be present at the school concert. The attendance was splendid considering the night. Everyone enjoyed the part of the program that was given. Lunch was partaken of. After which a dance was indulged in. The program may be repeated at a later date.

Miss Ida Boyd has so far recovered from the effects of her accident that she is able to be at home again.

Mr and Mrs H Greer and Miss Merle spent Monday at the home of S L Cloyd.

A crew of men have arrived from Arthurville to grade the slough by Langtons.

Miss Skitch spent Saturday at Red Deer.

We are all going to the Bowden fair. You'll miss it if you don't.
